RT03 – Regression:
Checkout Flow After
Payment Fix

+ ...

Description

Reason for Regression: BUG02 (Payment fails with valid card) has been fixed. We must ensure checkout and payment flow still works correctly and no new issues appear.

Precondition:

- Cart contains at least one product
- User has valid payment details

Regression Test Steps:

1. Go to Checkout
2. Enter valid card details
3. Click “Pay Now”
4. Verify payment succeeds
5. Verify order confirmation page appears
6. Verify order ID is generated
7. Navigate to Order History
8. Verify the new order appears in the list
9. Refresh Order History
10. Verify order still appears correctly

Expected Result:

- Payment succeeds
- Order confirmation is displayed
- Order appears in Order History
- No new issues introduced after the fix

Labels: regression, ecommerce, checkout, payment
