

1. Project Information

- **Project Name:** E-commerce Web Application
- **Test Cycle:** Functional + Regression
- **Tester:** Hema
- **Date:** (today's date)

2. Scope of Testing

- Login Module
- Search Module
- Cart Module
- Checkout Module
- Order History Module

3. Test Case Summary

Category	Count
Total Functional Test Cases	9
Total Regression Test Cases	3
Total Executed	12
Total Passed	12
Total Failed	0

4. Defect Summary

Bug ID	Description	Status
BUG01	Login fails with valid credentials	Fixed
BUG02	Payment fails with valid card	Fixed
BUG03	Cart count not updating	Fixed

All defects were retested and closed.

5. Regression Summary

Regression suite executed after bug fixes:

- RT01 – Login flow after fix → **Pass**
- RT02 – Cart flow after fix → **Pass**
- RT03 – Checkout flow after fix → **Pass**

No new defects introduced.

6. Test Coverage

- 100% requirement coverage (verified in RTM.xlsx)
- 100% functional test coverage
- 100% regression coverage

7. Environment

- Browser: Chrome
- OS: Windows
- Build Version: 1.0.0

8. Final Status

Application is stable and ready for release.
